Established in 1951, IOM is a Related Organization of the United Nations, and as the leading UN agency in the field of migration, works closely with governmental, intergovernmental and non-governmental partners. IOM is dedicated to promoting humane and orderly migration for the benefit of all. It does so by providing services and advice to governments and migrants.

IOM is committed to a diverse and inclusive environment. Internal and external candidates are eligible to apply to this vacancy. Applications from qualified female candidates are especially encouraged. For the purpose of the vacancy, internal candidates are considered as first-tier candidates.

Context:

Under the overall supervision of Regional Coordinator (Darfur), and the direct supervision of Head of Sub-office, in close technical coordination with the Migration Health Officer (Emergencies), the incumbent will assist in the planning, implementation and monitoring of health-care services related activities under HRT- especially focusing on delivering emergency and minimum primary healthcare package in West Darfur State.

Core Functions / Responsibilities:

1. Guide the team of medical field staff to better plan implementation and reporting of health-related interventions, including daily support and supervision to the health activities, human resource management, asset management, drug management and reporting.

2. Ensure safety of staff and the project beneficiaries including facilitation of smooth and timely referral for patients with critical condition in close coordination with the health partners

3. Lead the operation of mobile clinic or fixed-health facility during humanitarian emergencies as requested.

4. Facilitate preparedness and response to emergencies including disease outbreaks, natural and man-made disasters and quality infection prevention and control measures.

5. Actively engage in disease surveillance especially notifiable diseases to promote the quality of data collection, review, verify and analyse and report to IOM and MoH/WHO accordingly.

6. Ensure all the health-related services are in line with the national guidance and maintain close coordination and communication with IOM, SMoH and other partners.

7. Ensure and maintain effective field coordination with the health partners, government authority and community. This includes a regular attendance at the health-related meetings and joint health need assessment as requested.

8. Provide necessary information and documentation to HRT programme manager and Migration Health Officer (Emergencies) for drawing of the emergency and primary health-care services to be implemented and the preparation of project proposal.

9. Ensure conflict sensitive approach within health programming.

10. Perform any other duties that may be required from time to time.
